Sex: Male

Date of birth: 01. 01. 2000

Nationality: Slovenian

Dear Sir or Madam,

I would like to express my interest in studying or working abroad as an Erasmus student. I am currently in the third year at The Secondary School of Multimedia and Graphic Technology in Ljubljana. I have great interest in making movies, photography or television. My main inspiration is my own creativity with which I can easily express myself through short films, photographs and speech. Mostly I do either stuff for myself or for school and I think that with this programme I would get a lot of experience in new areas (other than just school and my home work). I also love languages and learning about new cultures and traditions in other countries which I haven't really gotten chances to explore yet. Furthermore, with Erasmus, I could improve my English and increase my confidence when speaking since I don't get many chances to speak English casually here. Once I finish this school I would like to go study abroad and gain as many fun experiences through film making as my life can offer. Erasmus is a big thing for me because it's the closest thing I could possibly get that would support my dreams.

Thank you for considering my request!

Ime Priimek
